EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. Major	Indian Institute of Technology Indore	8.08	2023-Present
Senior Secondary	CBSE Board	95.8%	2022
Secondary	CBSE Board	94.6%	2020

PROJECTS

- Langchain-repo-analyzer** Oct. 2025
LangChain, Chainlit, Mistral AI, ChromaDB GitHub
 - Developed an **LLM-powered code understanding system** that analyzes entire GitHub repositories and answers complex, context-aware questions in natural language.
 - Implemented a complete **retrieval-augmented generation (RAG)** pipeline — including **repository ingestion, document chunking, embeddings storage (ChromaDB)**, and intelligent retrieval for accurate Q&A.
 - Built an interactive **Chainlit-based frontend** for seamless real-time interaction, enabling users to explore functions, architecture, and logic flow within large codebases.
- Hierarchical Agentic Workflow Engine** Dec. 2025
Personal Project GitHub
 - Implemented a **hierarchical multi-agent system** using **LangGraph** with explicit Supervisor–Worker control flow.
 - Built **tool-augmented agent teams** (research, search, scraping, writing) using **LangChain + Gemini LLMs**.
 - Ensured **async-safe execution** and rate limiting with **asyncio** for reliable agent orchestration.
 - Integrated a **Chainlit UI** separating internal agent traces from final user outputs (production-style design).
- GenAI Video Editor** Jul. 2025
PyTorch, Deep Learning GitHub
 - Integrated **AnimeGAN** and **ReCoNet** for real-time video style transfer
 - Implemented **RIFE interpolation** to generate smooth slow-motion sequences
 - Customized PyTorch pipelines and modified core scripts for multi-model video editing
- AI-Powered Interview Question Creator** Aug. 2025
Personal Project GitHub
 - Developed a **Retrieval-Augmented Generation (RAG)** system that extracts key topics from PDFs and generates context-aware **interview Q&A pairs** using LLM APIs.
 - Implemented a modular **PDF ingestion and embedding pipeline (PyPDF2, FAISS)** with dynamic context retrieval and export support in **CSV/HTML formats** for dataset creation.

TECHNICAL SKILLS

- Programming:** Python, C/C++
- Machine Learning:** Scikit-learn, TensorFlow*, pytorch*, NumPy, Matplotlib * Elementary proficiency
- Computer Vision:** Image Classification, Object Detection, Image Segmentation, Style Transfer, OpenCV, TensorFlow/Keras
- GenAI / LLMs:** LangChain, Hugging Face Transformers, Retrieval-Augmented Generation (RAG), Prompt Engineering, Pinecone, FAISS, Embedding Models
- Other Skills:** Data Structures and Algorithms (C++), Basic Control Systems, Proposal Writing

KEY COURSES TAKEN

- Maths & ML Foundations:** Linear Algebra, Differential Equations I & II, Numerical Methods
- Programming & Data:** Computer Programming (C++), Industrial Data Analytics, Computer-Aided Machine Drawing

ACHIEVEMENTS

- Solved 400+ DSA & Competitive Programming Problems**, Check out my coding journey on **LeetCode**, **Codeforces**, and **GFG**—covered arrays, trees, dynamic programming, and graphs 2024–25
- JEE Advanced 2023**, Secured All India Rank 7298 2023
- Line Follower Robot (Team Project)**, Led mechanical design; built obstacle-lifting mechanism and achieved high-speed navigation 2024
