EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. Major	Indian Institute of Technology Indore	8.08	2023-Present
Senior Secondary	CBSE Board	95.8%	2022
Secondary	CBSE Board	94.6%	2020

EXPERIENCE

- Agmentis.ai**
AI Engineer Intern
– Implemented rule-based chunking pipeline for document processing to improve retrieval quality in RAG systems
– Developed Hindi RAG pipeline, handling multilingual embeddings and query-response generation
– Built a Chrome extension for interacting with the RAG system in real-time

Mar. 2026 – Present
Remote

PROJECTS

- Langchain-repo-analyzer**
LangChain, Chainlit, Mistral AI, ChromaDB
– Developed an **LLM-powered code understanding system** that analyzes entire GitHub repositories and answers complex, context-aware questions in natural language.
– Implemented a complete **retrieval-augmented generation (RAG)** pipeline — including **repository ingestion, document chunking, embeddings storage (ChromaDB)**, and intelligent retrieval for accurate Q&A.
– Built an interactive **Chainlit-based frontend** for seamless real-time interaction, enabling users to explore functions, architecture, and logic flow within large codebases.

Oct. 2025
Github
- Hierarchical Agentic Workflow Engine**
Personal Project
– Implemented a **hierarchical multi-agent system** using **LangGraph** with explicit Supervisor–Worker control flow.
– Built **tool-augmented agent teams** (research, search, scraping, writing) using **LangChain + Gemini LLMs**.
– Ensured **async-safe execution** and rate limiting with **asyncio** for reliable agent orchestration.
– Integrated a **Chainlit UI** separating internal agent traces from final user outputs (production-style design).

Dec. 2025
Github
- GenAI Video Editor**
ITIIsoc Project
– Integrated **AnimeGAN** and **ReCoNet** for real-time video style transfer
– Implemented **RIFE interpolation** to generate smooth slow-motion sequences
– Customized PyTorch pipelines and modified core scripts for multi-model video editing

Jul. 2025
Github

TECHNICAL SKILLS

- Programming Languages:** Python, C++
- Frameworks and Libraries:** FastAPI, TensorFlow, PyTorch, OpenCV, LangChain, Hugging Face, SQLAlchemy
- Developer Tools:** Git, GitHub, PostgreSQL, VS Code, Colab, Postman
- Concepts and APIs:** RAG, Prompt Engineering, SQL, REST APIs, Data Structures and Algorithms(DSA), JWT

KEY COURSES TAKEN

- Maths & ML Foundations:** Calculus, Linear Algebra, Differential Equations, Numerical Methods & Complex Analysis
- Programming & Data:** Computer Programming (C++), Industrial Data Analytics

ACHIEVEMENTS

- Solved 400+ DSA & Competitive Programming Problems**, Check out my coding journey on **LeetCode**, **Codeforces**, and **GFG**—covered arrays, trees, dynamic programming, and graphs

2024–25
- JEE Advanced 2023**, Secured All India Rank 7298

2023
- Line Follower Robot (Team Project)**, Led mechanical design; built obstacle-lifting mechanism and achieved high-speed navigation

2024
